

# CYBER SECURITY

---

---

--?

- You are a White hat haker
  - You are in your space station laboratory
  - You have multiple coputers
  - The computers are constantly attecked by other space ships
  - You have to switch between computers
  - Play multiple basic minigames to protect your computers
  - You have to acumulate points to get powerups
  - Power Ups gonna help you to protect your computers
  - The game will become more difficult with time
  - The attacks will be repedet more often and will have more obstacles
  - **The mini games will be something like: fallpy birds, Space invaders and geral arcade classic games**
- 
-
